

**Remarks/Arguments**

The Examiner has required restriction to one of two inventions: invention I of claims 1-17 and 33; and invention II of claims 18-32 and 34. Applicants have canceled claims 18-34 above, and added new claims 35-38 which are dependent on claim 1. Applicants elect invention 1, which Applicants believe includes claims 1-17 and 35-38.

The Examiner also has required an election of a species. Applicants elect the species of claim 17: 4-dimethylamino-but-2-enoic acid [4-(3-chloro-4-fluoro-phenylamino)-3-cyano-7-ethoxy-quinolin-6-yl]-amide.

Applicants have also amended claim 15 above to correct a typographical error.

Applicants respectfully urge the Examiner to consider all of claims 1-17 and 35-38 in one application, and to examine the merits of these claims at an early date.
